ReMaT-Workshop Research Management Training for Early-Stage Researchers

26 - 27 April 2010

ReMaT offers an intensive, two-day course in research management and science entrepreneurship to introduce PhD students in science and engineering to key strategic topics and transferable skills in research funding, management, knowledge transfer and value creation. The training provides an opportunity for European networking as well.

Scientific research is at the heart of the European knowledge economy. We need researchers who understand how to manage and fund research, how to work effectively with industry, how to develop and manage their innovative ideas for maximum social and economic benefit.

Organiser:

The workshop is provided by the International Cooperation and EU Office at TuTech Innovation GmbH, a technology transfer service company which has for over a decade provided support for researchers at Hamburg University of Technology in preparing proposals and providing pro active practical project management support for EC supported research projects, in many cases involving intensive partnerships with industry.

Fees:

€450 (plus 19 % VAT) includes workshop, copy of materials, lunch and refreshments.
