RESEARCH  
MANAGEMENT

# How to develop a strategic plan for funding your research

The continuity of research funding often makes or breaks a research career at the postdoctoral stage. As institutional core funding diminishes and external funding becomes more and more competitive, how do you build your re-sources systematically and mitigate the risk of gaps in funding?

## Content and Aim of the Workshop

The workshop explores the concept of strategy in the research context. Having a clear idea of your research direction facilitates aligning even small projects to larger goals and makes individual proposals more compelling. It also helps to avoid the trap of letting funding dictate your research focus, which may lead to a fragmented track record. The goal of the workshop is to provide guidance on how to approach the development of a strategic funding plan in the individual research setting. Participants will identify a portfolio of funding opportunities to be pursued in the coming years and manage the grant life cycle systematically to build the resources and capabilities necessary to deliver long-term sustainable research. A specific focus is on integrating national and EU funding sources, including both MSCA Fellowships and ERC Starting Grants.

## Topics covered

- ▶ Reviewing your research agenda and career objectives
- ▶ Navigating the research funding landscape
- ▶ Finding and selecting funding for different purposes
- ▶ Exploiting funding opportunities effectively
- ▶ Moving from smaller to larger grants
- ▶ Developing a funding strategy for the individual research setting

## Target Group

This workshop is designed for postdoctoral researchers who plan on continuing their career in research. It is limited to 12 participants and will be presented in English.

## Programme

- 09:00 Registration / welcome  
09:30 Introduction to workshop and tour de table

### **Strategy in research context**

- ▶ What is it for and why is it important?
- ▶ Reviewing your research agenda and career objectives

### **Exploiting funding opportunities**

- ▶ Types of funding and funding agencies
- ▶ What makes a fundable project?
- ▶ Implications for writing grant proposals
- ▶ Moving from smaller to larger grants

12:30 Lunch

### **Exploiting funding opportunities**

- ▶ Finding and selecting funding
- ▶ Practice scenario

### **Towards a research funding strategy**

- ▶ Mapping future research projects
- ▶ Preparing for a rolling cycle of proposals
- ▶ Getting support from your host institution

16.30 Close

Dr. Thomas Koch

## Trainer

Thomas Koch is a research management consultant and certified business trainer and coach. Holding a PhD in physical chemistry from the UK, he has over 10 years of international experience as a researcher throughout Europe and over 12 years of experience as a research manager and administrator at German universities. He held a variety of senior positions at Ruhr University Bochum (2002-2011) and Ludwig Maximilian University Munich (2011-2015) delivering high-level support and advisory services for both researchers and university top management. His professional focus covers research strategy, external research funding, knowledge and technology transfer as well as early career researcher development.

In 2016 he started up his own consultancy to provide hands-on workshops and individual guidance for researchers to realise their research ideas and career objectives. He also supports higher education and research institutions in strategy processes and organisational development.
